

FASTERHOLT RB 87 - RB 87X

Round bale loader

FASTERHOLT RB 87 - RB 87X • Round bale loader

Loading is done by means of a hydraulic fork - please note the strong teeth as backstop and for collecting.

- the efficient and hydraulic loader which does the heavy work.

With just one man and a tractor you can collect and take home round bales quickly and efficiently.

When gathered, the round bales can be tipped off for storage stacked in columns. The round bales can again be collected on the loader when needed.

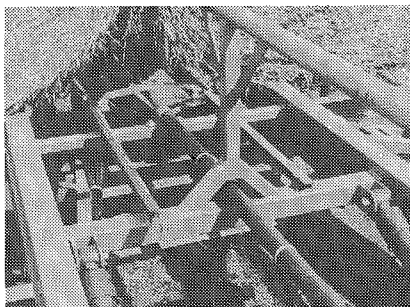

Round bales are grabbed by the loading arm and are then loaded hydraulically.

RB 87 can carry up to 8 bales from 130 to 175 cm in diameter. Lengths from 120 to 125 cm. Maximum weight per bale 450 kg.

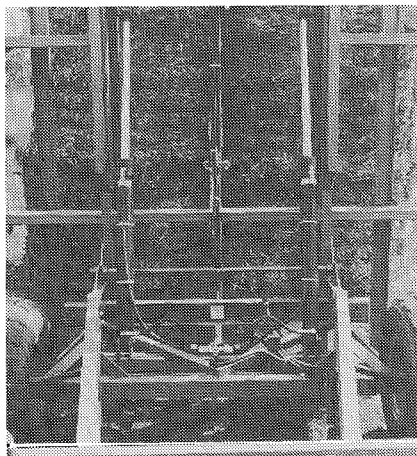

RB 87X can carry up to 6 bales from 130 to 180 cm in diameter. Lengths from 120 - 150 cm. Maximum weight per bale 650 kg.

Hydraulic loading arm for gathering round bales. Adjustable fork.

Cylinder for pulling back the loaded bales.

Two strong cylinders for tipping up the platform.

Round bales unloaded for storage. On collection the teeth are driven in under the desired number of columns.

Technical data RB 87:

Length of platform:	520 cm
Width of platform:	Variable between 250-330 cm
Height to platform bottom:	102 cm
Tyres:	14 x 16" - 14 layers
Required amount of oil:	9 ltrs.
Required oil pressure:	160 bar
Own weight:	1950 kg
No. of bales:	8

Technical data RB 87X:

Lengths of platform:	520 cm
