1. The fully galvanized drawbar, which has winch and hose with fixed stop bracket for easier installation and faster operation uses only 2 ground spikes. (Fast Stop bracket is optional).
2. Here is the strong and robust Nelson SR150 gun. A regular quality gun that works for many hours / years without any problems.
3. Note the ingenious system to stop the negative pressure.
4. The machine's propulsion is carried out by the rotor, which transmits the power to an angle gearbox for a safe drive.
5. TL 235 S is built around the well-known 6-speed gearbox from MF 35 tractor.
6. Here is the control lever for belt tension and the brake lever on the hose drum. It also shows the front axle, which is also used by the well-known MF 35 tractors.

Technical data for FM TL 235 S:

Size of hose: max 500/100 mm – max 350/110 mm
 Total length: 810 cm
 Length without pull: 475 cm
 Height: 365 cm
 Total weight w. water: 5,500 kg
 Wheel gauge, std: 162 cm

Size of wheels: rear wheel: 11.2"x28"x8 ply
 front wheel: 900x16"x6 ply
